

## Men's Night Best Ball Competition

### 4 Person Team

The main rule to follow here is that 2 tee shots have to be used from each player. The other tee shot can be from anyone of the 4. Everybody hits the second shot and everybody putts. One player only can have 3 tee shots.

### 3 Person Team

In this case the team is allowed to have 4 tee shots, 4 approach shots and 4 putts each hole. The extra shots should be spread out among the 3 players. Each player can have a maximum of 3 tee shots.

### 5 Person Team

With the 5 person team each player is required to use 1 tee shot while the maximum number of tee shots for any one player is 3. All 5 players can tee off but only 4 can hit the approach shot while only 4 players can putt on each hole. The best rule to follow is **whomever's shot you take cannot hit the next shot**. For example, if you use player A's tee shot on Hole #2, Player A does not hit the approach shot. Or if you use Player A's approach shot to the green, Player A does not putt.
